ROHIT CHOUDHARY

AI/ML & Full Stack Software Engineer

rohitchoudharyjat2003@gmail.com • +91 7425058310 • Chennai, India • linkedin.com/in/rohit-x • github.com/Rohit-choudhary03

PROFESSIONAL SUMMARY

Final-year Computer Science undergraduate (CGPA 8.38) specializing in **Artificial Intelligence, Machine Learning, and Full-Stack Development**. AWS Certified AI Practitioner with hands-on experience developing ML predictive forecasting systems (achieving 85% accuracy on 5+ years of data), automated reporting pipelines, and production REST APIs. Seeking opportunities in AI/ML engineering, software engineering, and technical education.

EDUCATION

SRM Institute of Science and Technology — B.Tech in Computer Science Sep 2023 – May 2027 | Chennai, India

CGPA: 8.38 / 10.0 • Relevant Coursework: Machine Learning Foundations, Data Structures & Algorithms, Operating Systems, DBMS, Object-Oriented Programming.

EXPERIENCE

Oston Technology Private Limited — Full Stack Developer Intern Dec 2025 – Feb 2026 | Chennai, India

- Engineered and deployed **10+ RESTful APIs** using Node.js and Express, supporting client applications and 3 third-party integrations.
- Improved API response speed by **35%** through query optimization and database indexing in PostgreSQL.
- Designed frontend interfaces in React and connected them to **8+ backend endpoints**.
- Resolved **15+ production bugs** across backend services, reducing recurring incident reports by an estimated 20%.
- Collaborated in Agile sprints with a 6-member cross-functional team, participating in sprint planning, debugging, and code reviews.
- Authored **5+ technical documentation guides** for API integration, cutting new developer onboarding time by roughly 25%.

PROJECTS

Carbon Emission Forecasting System (AI/ML) | AI/ML, Python, Regression, Predictive Modeling Sep 2025 – Dec 2025

- Implemented regression-based forecasting models achieving **~85% prediction accuracy** on 5+ years of historical emission data (10,000+ records).
- Engineered end-to-end data pipelines for preprocessing, feature transformation, and model evaluation in Python.
- Created 5+ interactive dashboards visualizing sector-wise trends and automated data reporting, cutting cycle time from ~4 hours to 1 hour.

Power BI Enterprise Analytics Portfolio | Power BI, DAX, Power Query, SVG, Python Jan 2026 – Mar 2026

- Designed interactive business intelligence dashboards for sales, inventory, IT support, and executive performance reporting.
- Created dynamic KPI cards, drill-through reports, ranking visuals, Pareto analysis, and scenario-based forecasting insights using DAX.
- Cleaned, transformed, and modeled complex multi-source datasets using Power Query for high-accuracy decision analytics.

AgriLearn – Educational Gaming Platform for Farming Concepts | Full Stack, PostgreSQL, REST APIs Jan 2026 – Mar 2026

- Architected 12+ RESTful APIs using MVC architecture, powering game logic, progress tracking, and 2 live weather/soil data APIs.

- Reduced average API response time by ~30% through PostgreSQL query optimization and indexing.
- Designed responsive game-based learning modules delivering interactive agriculture concepts across desktop and mobile.

TECHNICAL SKILLS

AI & Machine Learning:	Predictive Modeling, Regression Analysis, Scikit-learn, NumPy, Pandas, Generative AI Foundations, AWS Cloud AI (Bedrock, SageMaker)
Languages:	Python, Java, C++, JavaScript, SQL, HTML5, CSS3
Frameworks & Libs:	Spring Boot, React, Node.js, Express, Flask, Bootstrap, JDBC, REST APIs
Databases & Tools:	PostgreSQL, MySQL, Git, GitHub, Postman, Power BI, VS Code
Core Subjects:	Data Structures & Algorithms (DSA), DBMS, Operating Systems, OOPs, ML Pipelines
Soft Skills:	Cross-functional Collaboration, Problem Solving, Communication, Strategic Thinking

CERTIFICATIONS

- **AWS Certified AI Practitioner** — Amazon Web Services (Valid till 2029)
- **Oracle Certified Professional: Java SE 17 Developer** — Oracle Corporation
- **SAP Certified – Data Analyst – SAP Analytics Cloud** — SAP (Valid till Apr 2027)
